About Me

What do I bring to the table?
As a full-stack web developer I am passionate about building secure and reliable websites for my users. I approach UI design with empathy and strive to create seamless, intuitive and easy-to-navigate UX.
I prioritize scalability and reusability in my apps, by following the separation of concerns principle I aim to split the logic into smaller manageable pieces, which ensures easier future refactoring and upgrades.

I don't want...
...Just another job. I enjoy solving problems and taking on a challenging projects. I'm keen to work in a team of like-minded developers where we continually learn and improve our skills.

Experienced With

Node.js	JavaScript	React.js
Express.js	HTML5	Redux Toolkit
PostgreSQL	CSS3	Docker
MySQL	NPM	REST API
MongoDB	Git & Github	TypeScript

My Projects

Password Manager
Full-stack app with the security of Refresh Token, reuse detection+rotation, short-lived Access Token. Encrypting the password's vault. A smooth multi-device feature.
- React & Redux, Node & Express & PostgresSQL -

Cars Club
Full-stack app using TypeScript with React, Node with Multer I'm storing the Buffer of a FormData's image in Postgres as BYTEA.
In React I use Blob on Uint8Array, then with URL.createObjectURL convert it to SRC value.

Chat APP
Backend-focused real-time chatting app. I created this website with WebSocket protocol using Socket.io library.
-- WebSockets, Node and Express --

King-Store Clothes
Full-stack app created using React and Redux; NodeJS for the backend and Firebase Firestore as the Database.
-- JavaScript, React & Redux styled-components, Node.js + Express.js --

Weather APP
Full-stack app using Node.js, Express.js, Tailwindcss, HBS. Forecast API integrations.
-- Tailwind CSS, Handlebars.js, Weather forecast APIs integrations --

Task-Manager APP
Fullstack app with JWT authentication, EJS, Node, Express and SendGrid API.
-- MongoDB Database, JSON Web Token --
